FINANCIAL PERFORMANCE SNAPSHOT

The year-to-date net operating shortfall of \$9.9m is \$18.2m favourable to the budgeted deficit of \$28.1m. This favourable variance is attributable to a combination of factors as outlined below:

Revenue

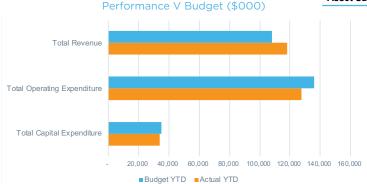

- Subsidies and grants are \$2.1m above budget due to government grants related to cyclone recovery, DIA three waters funding, and Better Off Funding.
- Financial Contributions are \$1.8m above budget due to higher-than-expected development across the city.
- Other Revenue is \$4.9m above budget due to a legal settlement, an insurance receipt and sales in Parklands Residential Development being above the average budgeted sale price.

Expenditure

- Employee benefit expense is below the revised budget by \$3.6m due to vacancies across Council. However, this expense is above the Annual Plan budget due to additional resources which have been approved by management since the Annual Plan was adopted. For revenue generating business units, this will be offset by additional revenue.
- Depreciation expense is below budget by \$1.4m due to the reduced level of asset capitalisation from the previous year.
- Finance costs are \$1.1m less than budgeted, attributed to lower borrowing than anticipated, primarily stemming from the timing of capital expenditures.
- Offsetting these positive variances, other operating expenses are \$1.8m above budget. This is due to unbudgeted roading maintenance due to Cyclone Gabrielle and November 2020 flood recovery works, and other Cyclone Gabrielle recovery expenditure.

SERVICE PERFORMANCE SNAPSHOT

February 2024

Council approved the preliminary designs for the new library, meaning the designs progressed to the resource consenting stage.

March 2024

Council held its second 'Future Focus' event. This new event series is to position NCC and Napier positively within various sectors, both locally and nationwide, to encourage businesses and families to establish themselves here or expand further. Our first event late last year was focused on the building and development sector to support development and investment in Napier. The second event this year was with the Awatoto businesses that were severely affected by Cyclone Gabrielle. The gathering was well-received and was an opportunity for Council to continue to build its relationship with this community

Council hosted a drop-in session for coastal residents who may be impacted by future seawater flooding. The session gave the community the chance to learn more about the findings from the Clifton to Tangoio Coastal Inundation report and what this could mean for their property.

The Natural Hazards: Issues and Options consultation opened. This is part of the District Plan consultation, focusing on the Natural Hazards chapter. The consultation sought people's feedback on their level of risk tolerance to natural hazards such as coastal inundation, tsunami, other forms of flooding, and earthquakes.

The 2024-27 Three-Year Plan consultation document was adopted by Council on 14 March, along with related policies and supporting documents. Community consultation opened on 25 March.

Sale of sections in Stages 9 and 10 of Parklands opened.

Bay Skate hosted the World Skate Oceania Continental Championships for Scootering. This event involved the best riders from Australia and New Zealand.

SERVICE PERFORMANCE SNAPSHOT KEY PERFORMANCE MEASURES

This quarter 81% of key performance indicators (78 of 96) measured on a monthly or quarterly basis were achieved or are in process and on target to be achieved by year end. Any measures which were not achieved are explained in the activity section of this report, along with a full list of performance measures and results.

SUMMARY NET OPERATING EXPENDITURE OF ACTIVITY GROUPS

Activity Group Detail

This section provides further detail on the key performance measures and the financial performance of each of the activities within Council.

The Council activities contribute to the Community Outcomes, as stated in the 2021-31 Long Term Plan. Council considers that meeting its service level targets constitutes a major role as a contributor to the progress of the Community Outcomes.

Governance and Representation

Democracy and Governance

Council's Democracy and Governance Activity provides a democratic and consultative system for governance and decision making. The activity encompasses the management of:

- the Council meeting and decision making process;
- local elections; and
- · responses to official information requests.

Napier City Council elections are held every three years and currently comprises the election of:

- Mayor by the City as a whole;
- two councillors by the Ahuriri Ward;
- two councillors by the Onekawa-Tamatea Ward;
- · four councillors by the Nelson Park Ward; and
- four councillors by the Taradale Ward.

The First Past the Post system was retained for the 2019 election, but Council have no Māori Wards or Community Boards for this election period.

Council's governance function is delivered through a structure of standing committees, joint committees, specialist and sub-committees and council controlled organisations. The Local Governance Statement (available on the website) provides information on this structure, the processes through which Napier City Council engages with the residents of Napier, how the Council makes decisions, and how citizens can participate. As the Local Governance Statement is a living document, it is updated periodically over the three-year term.

The overall aims are to:

- ensure the city develops in a sustainable manner;
- promote economic growth;
- promote tourism;
- foster a safe environment:
- be a guardian of the city's assets and infrastructure; and
- engender pride in Napier.

Fundamental roles of Council are to represent the community, to receive and understand their views, make good decisions for the benefit of the community, and if appropriate, explain Council reasoning behind a particular decision or policy, to those who might be interested. Ngā Mānukanuka o te Iwi (Māori Committee) provides Māori perspectives across all Council business, as well as raising matters of importance to Māori in Napier through to Council.

Democracy and Governance stakeholders are all residents of Napier City and the wider region. Consultation with stakeholders is carried out in accordance with the Significance and Engagement Policy.

Te Waka Rangapū

Established in 2021 Te Waka Rangapū fosters a culturally enriched environment at Napier City Council, nurturing meaningful partnerships with māori to honor Te Tiriti o Waitangi and deliver positive outcomes for Ahuriri.

Te Waka Rangapū has a specific focus on engagement and partnership with mana whenua our Post-Settlement Governance Entities, Mana Ahuriri Trust and Maungaharuru Tangitū Trust and Marae also Iwi Māori such as Te Taiwhenua o te Whanganui a Orotu, Ngāti Pārau Trust, Hapori (Community), Government Agencies that support the Community of Napier.

We strive to ensure that engagement with mana whenua happens early on for all projects, ensuring that partnerships are formed to enhance decision making and achieve equitable outcomes and strong partnerships. To help achieve this and align with our Strategy, Te Waka Rangapū are also building cultural capability within Council to continually improve Councils approach to partnership with mana whenua and tangata whenua.

City Development

City Development is the means by which we plan and deliver urban and economic growth strategically and sustainably. We assess and decide how our built and natural environment will be developed, and how that process will be managed. We take into consideration Napier's historic heritage and incorporate urban design, functionality, city vibrancy and aesthetics into all our city developments and projects. We guide our investment in infrastructure and urban renewal, so it is efficiently located and caters for the planned growth of the city.

The Policy team delivers planning and policy functions by meeting the statutory requirements under the Resource Management Act 1991 (RMA) and other relevant legislation. We provide professional, strategic, clear and frank advice to our elected members so that they can make informed decisions that will benefit our city and community now and in the future.

The City Design & Urban Renewal team aims to create a great urban environment, promoting heritage protection, ecological excellence, sustainable transport, and good urban design throughout the city, which will result in a well-connected, vibrant and liveable city.

Building Consents

The core functions of our Building Consents team comprise of processing building consent applications, inspecting building work on site, and issuing code compliance certificates at the completion of building work.

Additionally to the core functions, we also inspect swimming pool barriers, audit Building Warrants of Fitness, investigate complaints, carry out enforcement action when required, and provide advice and information to the public on building-related issues.

Resource Consents

The Resource Consents team is responsible for the assessment and determination of proposed developments or activities, and monitoring compliance with relevant legislated requirements and/or Notices of Decision.

The work undertaken by resource consenting is legislated under the RMA and at times under the Local Government Act 2002 and the Hazardous Substances and New Organisms Act 1996.

Resource consenting provides pre-application advice to the public, undertakes the assessment of applications lodged under the RMA or the LGA, determines notification requirements (where applicable), and makes decisions on applications.

Additional tasks related to the consenting process include compliance monitoring, which takes place when a complaint is received for possible offences under the RMA.

Regulatory Solutions

Regulatory Solutions are responsible for licensing, monitoring and inspecting a range of services that are provided largely by local businesses and which have the potential to cause harm to the public. Our work is determined by legislation such as the LGA, Sale and Supply of Alcohol Act 2012, Health Act 1956, and the Food Act 2014, as well as related regulations and Council-set by-laws.

The sectors we regulate include food premises, camping grounds, hairdressers, funeral directors, offensive trades, and liquor licensing services.

In addition, Council is responsible for investigating notifiable diseases, investigating and monitoring nuisance to the community, providing a noise control service, and monitoring and enforcing freedom camping. Regulatory Solutions undertakes the regulatory functions of the Dog Control Act 1996 on behalf of Animal Control.

Regulatory Solutions provides advice, education, and assistance to individuals and businesses to help them comply. We also take enforcement action where required to ensure the safety and well-being of the public.

Animal Control

Animal Control is responsible for the implementation and enforcement of the Dog Control Act 1996 and Council by-laws relating to this Act. A large proportion of the work of the Animal Control team is responding to public safety issues and taking necessary action to keep people and dogs safe following an incident. To prevent these incidents from occurring, the Animal Control team proactively patrol reserves and beaches, parks, and playgrounds to ensure compliance with the Act and Napier City's Dog Control Policy.

Educating people is a big part of what the team do to promote a culture of responsible dog ownership in Napier. A dog pound is operated by Council and acts as a safe holding place for dogs.

Those dogs that are suitable to be rehomed are held at the pound until their new home can be found. Animal Control operates the animal shelter caring for any impounded dogs, and cares for an average of 500 dogs per year.

The team also maintain the Park Island and Taradale dog agility parks and the dog shower at Park Island, and keep the poo-bag dispensers around our city topped up.

Parking

Parking has a major influence on the function, look, and feel of an inner city. We provide parking so that goods can be delivered and workers, customers, clients, and inner-city residents can readily access the CBD. There is always a balance between meeting the demand for parking convenience (the desire for lots of parks right next to the shops, businesses, and places of work that people want to get to) and the need to create a compact, intimate CBD that cultivates business, social, and cultural interaction.

Council achieves this balance by providing a range of parking options to suit the various ways people wish to engage with the CBD:

- On-street parking
- Off-street parking
- Leased parking
- · Mobility parking, and
- Alternative transport parking, eg, motorcycle, bikes, and electric vehicles.

All Council-controlled parking areas are patrolled regularly to ensure people are complying with the parking rules set by the Napier City Council Parking Control Bylaw.

Water Supply

Water Supply

Council provides a water supply system for the supply of safe, potable water as well as for firefighting purposes. A safe and cost-effective drinking water supply is a key factor in sustaining the physical health of a community.

Our system draws water directly from the Heretaunga Plains aquifer through seven Council-managed bores. The network utilises nine booster pump stations, and approximately 482 km of water mains to supply fresh water to over 93% of Napier's population. We utilise 11 large storage reservoirs at high points across the city to provide both backup water supply and adequate pressure to users.

The assets that form the water supply activity include:

- Water sources and bores
- Booster pump stations
- Treatment plants, and
- Reticulation mains and pressure valves.

The overarching vision is to maintain and improve public health for our community and visitors. We will do this with modern water infrastructure that can reliably supply safe water to customers, now and in the future. We plan, operate, and maintain the network to ensure public health and safety, provide reliable pressure and flow, minimise our impact on the environment, and respond quickly should things go wrong.

WATER SUPPLY PERFORMANCE SUMMARY

| Water Supply Level of service | Performance measures | First Quarter | Second Quarter | Third Quarter | Target 2023/24 | Indicator | Comment |
|--|--|---|---|---|---------------------------|-----------|--|
| Safeguard Public Health | Compliance with Part 4 criteria of the Drinking Water Standards (bacteria compliance criteria) (Mandatory measure 1) | Not applicable - standards superseded by Taumata Arowai legislation | Not applicable - standards superseded by Taumata Arowai legislation | Not applicable - standards superseded by Taumata Arowai legislation | Achieved | N/A | |
| | Compliance with Part 5 criteria of the Drinking Water Standards (protozoa compliance criteria) (Mandatory measure 1) | Not applicable - standards superseded by Taumata Arowai legislation | Not applicable - standards superseded by Taumata Arowai legislation | Not applicable - standards superseded by Taumata Arowai legislation | Achieved | N/A | |
| Management of Environmental Impacts | The percentage of real water losses from Council's networked reticulation system as determined through an annual water balance (Mandatory measure 2) | End of Year Measure | End of Year Measure | End of Year Measure | Decrease on previous year | N/A | |
| | Average annual consumption of drinking water per day per resident (Mandatory measure 5) | End of Year Measure | End of Year Measure | End of Year Measure | <450 L | N/A | |
| | Median response times from time notification received: attendance time for urgent call-outs (Mandatory) | 0.3 hours | 0.3 hours | 0.25 hours | ≤ 90 minutes | • | |
| | Median response times from time notification received: resolution time for urgent call-outs (Mandatory) | 1.21 hours | 1.16 hours | 1.25 hours | ≤ 6 hours | • | |
| | Median response times from time notification received: attendance for non-urgent call-outs (Mandatory) | 17.62 hours | 18.02 hours | 26.4 hours | ≤ 8 hours | • | We are consistently underperforming on this 8 hour target. Improvements to job categorisation and reporting are helping to build understanding of outlier results (very prolonged response times) which are lifting this median result. The Three-Year Plan 2024 gives us the opportunity to review if this target is overly optimistic (Hastings District Council target 3 days, Auckland City Council target 5 days) |
| | Median response times from time notification received: resolution time for non-urgent call-outs (Mandatory) | 21.42 hours | 22.75 hours | 54 hours | ≤ 72 hours | • | |
| Customer Satisfaction | Total number of complaints per 1,000 connections relating to drinking water clarity | 0.45 complaints per 1000 connections | 0.54 complaints per 1000 connections | 0.58 complaints per 1000 connections | Downwards trend | • | |
| | Total number of complaints per 1,000 connections relating to drinking water taste, drinking water clarity, drinking water odour, drinking water pressure or flow, and continuity of supply (Mandatory measure 4) | 0.78 complaints per 1000 connections | 0.75 complaints per 1000 connections | 0.76 complaints per 1000 connections | ≤2 | • | |
| | Percentage of residents satisfied with Water Supply in the Residents' Satisfaction Survey | End of Year Measure | End of Year Measure | End of Year Measure | 89% | N/A | |
| Investigation of options for chlorine free network | Complete the 'Chlorine Free Review' report by 2021 and consult with the community on the implementation of the findings | Achieved | Achieved | Achieved | Achieved | • | |

Wastewater

Council provides and maintains a safe, effective, and efficient domestic sewage collection, treatment, and disposal system to help maintain community health. In addition, we provide for a separate industrial sewage collection and disposal system for selected trade waste customers. Our wastewater network serves 24,800 properties: roughly 97% of the city.

The network consists of:

- 390 km of wastewater mains
- 49 wastewater pumping stations
- a treatment facility located at Awatoto (with a Biological Trickling Filter plant and a Milliscreen plant), and
- a 1.5 km long marine outfall.

WASTEWATERPERFORMANCE SUMMARY

| Wastewater Level of service | Performance measures | First Quarter | Second Quarter | Third Quarter | Target 2023/24 | Indicator | Comment |
|---|--|------------------------------|------------------------------|------------------------------|----------------------------|-----------|---|
| Public Health and Sanitation: We operate, maintain, and size the network to minimise the occurrence of raw wastewater overflows into habitable areas | Number of wastewater overflows | 0.59 per 1000 connections | 0.51 per 1000 connections | 0.22 per 1000 connections | <0.12 per 1000 connections | • | Symptom of an aging wastewater network. Renewal plan under development to take effect from 2025 |
| Minimise Environmental Impacts: By treating wastewater to the legally required standard before discharging into the environment | Compliance with resource consents for discharge from the wastewater system as measured by the number of abatement notices received in relation to wastewater resource consents (Mandatory) | 0 | 0 | 0 | 0% | • | |
| | Compliance with resource consents for discharge from the wastewater system as measured by the number of infringement notices received in relation to wastewater resource consents (Mandatory) | 0 | 0 | 0 | 0% | • | |
| | Compliance with resource consents for discharge from the wastewater system as measured by the number of enforcement orders received in relation to wastewater resource consents (Mandatory) | 0 | 0 | 0 | 0% | • | |
| | Compliance with resource consents for discharge from the wastewater system as measured by the number of convictions received in relation to wastewater resource consents (Mandatory) | 0 | 0 | 0 | 0% | • | |
| Customer Responsiveness and Satisfaction: | Median response times to sewerage overflows: attendance time from notification to staff on site (Mandatory) | 0.58 hours | 0.36 hours | 1.83 hours | ≤2 hours | • | |
| We respond to and restore loss of service and address complaints AND | Median response times to sewerage overflows: resolution time from notification to resolution of the issue (Mandatory) | 2.03 hours | 1.78 hours | 3.35 hours | ≤8 hours | • | |
| will deliver a consistently high level of customer satisfaction | Customer satisfaction with wastewater in the Residents' Satisfaction Survey | End of Year Measure | End of Year Measure | End of Year Measure | 70% | N/A | |
| | Total number of complaints per 1,000 connections relating to sewage odour, sewerage system faults, sewerage system blockages, and response to issues with Napier's sewerage system (Mandatory) | 2.10 per 1000 connections | 2.35 per 1000 connections | 1.62 per 1000 connections | ≤36 | • | |
| | Blockages resulting in overflows into the Ahuriri Estuary | 19 | 14 | 0 | 0 | • | This data requires review and confirmed data will be provided in the Annual Report. |

Performance Indicators: • Achieved • In progress and on target • Within 10% • Not achieved, greater than 10%

The Stormwater activity is responsible for safely collecting, treating, and disposing of the city's stormwater. One of the core goals of the city's stormwater system is to minimise the effects of flooding, a service which has been at the forefront of our community's minds since the November 2020 flood event. Our stormwater system consists of open drains, large underground pipes, and pump stations which carry rainwater out into the ocean. About three quarters of the city is now reliant on pumped systems for stormwater drainage.

The stormwater network asset comprises 241 kms of pipe network, 10 pump stations, and two detention dams. Together, stormwater assets have a replacement value of \$341 million as at 30 June 2020.

We have a statutory responsibility to ensure stormwater is managed through ownership and management of our own drainage network. Our network minimises the health risk to the community through safe collection, treatment, and disposal of stormwater. Through controlled disposal and by enhancing the quality with various programmes and monitoring interventions we also minimise the pollution which drains into receiving environments.

STORMWATERPERFORMANCE SUMMARY

Stormwater

| Level of service | Performance measures | First Quarter | Second Quarter | Third Quarter | Target 2023/24 | Indicator Comment |
|--|---|--|------------------------------|---|----------------|-------------------|
| The stormwater network adequately protects the health | Number of flooding events that occur per year (Mandatory) | 0 | 0 | 0 | ≤1 | • |
| and safety of Napier residents and protects property by providing protection against flooding | For each flooding event, the number of habitable floors affected per 1,000 properties (Mandatory) | 0 | 0 | 0 | ≤1 | • |
| | Median response time to attending a flood event (notification to personnel being on site) (Mandatory) | 0 | 0 | 0 | ≤2 hours | • |
| Stormwater is collected and disposed of in a manner that protects public and environmental health | Compliance with resource consents for discharge from the stormwater system as measured by the number of abatement notices (Mandatory) | 0 | 0 | 0 | 0 | • |
| | Compliance with resource consents for discharge from the stormwater system as measured by the number of infringement notices (Mandatory) | 0 | 0 | 0 | 0 | • |
| | Compliance with resource consents for discharge from the stormwater system as measured by the number of enforcement orders (Mandatory) | 0 | 0 | 0 | 0 | • |
| | Compliance with resource consents for discharge from the stormwater system as measured by the number of convictions received in relation to stormwater resource consents (Mandatory) | 0 | 0 | 0 | 0 | • |
| Residents are satisfied with Council's stormwater service | Number of complaints received about performance of stormwater system (per 1,000 properties connected) (Mandatory) | 0.95 per 1000 connections | 1.19 per 1000 connections | 1.23 per 1000 connections | ≤5 | • |
| | Percentage of residents satisfied with stormwater in Residents' Satisfaction Survey | End of Year Measure | End of Year Measure | End of Year Measure | 89% | N/A |
| Stormwater is collected and disposed of in a manner that protects public and environmental health | Number of education programmes delivered to improve stormwater quality | 1 - Hawke's Bay Home and Garden Show | 0 | 1 - Ad in Starters & Strategies, the New Zealand Teacher's Magazine about the whys and the ways of Hawke's Bay Water Conservation | >1 | |

Transportation

Napier City's Transportation team are responsible for managing all land-based transportation activities funded in part or in full by NCC to meet community outcomes. Further to these community outcomes, there are four key strategic priorities being targeted nationally for the transportation network across the country through the Government Policy Statement. These are:

- Safety
- Better travel options
- Improving freight connections, and
- · Climate change.

Napier City Council provides for freight and passenger transport with 366 kilometres of sealed roads, along with all associated structures, drainage, road furniture, street lighting, and traffic safety services. The majority of the network is urban with rural roads serving the foothills to the west and the primary production areas to the south. In both instances the rural network connects to the Hastings District Council network.

Council also provides for cycling and walking modes of transport through a well-integrated network of cycleways and footpaths.

Transportation is a significant and essential activity for Napier City contributing to the economic, social, cultural, and environmental well-being of the community. Transportation corridors are a key element of the local environment supporting the community and economy. It is essential that transportation continues to be delivered to an appropriate standard to achieve national, regional, and NCC's strategic objectives and desired outcomes.

TRANSPORTATION PERFORMANCE SUMMARY

Transportation

| Level of service | Performance measures | First Quarter | Second Quarter | Third Quarter | Target 2023/24 | Indicator | Comment |
|---|--|------------------------|------------------------|------------------------|---|-----------|---|
| Design and construct safety improvements to minimise the number of injury crashes | The change from the previous calendar year in the number of fatalities and serious injury crashes on the local road network, expressed as a number (DIA Performance Measure 1) | End of Year Measure | End of Year Measure | End of Year Measure | -1 | N/A | |
| Provide well maintained roads | The average quality of ride on a sealed local road network, measured by smooth travel exposure (DIA Performance Measure 2) | End of Year Measure | End of Year Measure | End of Year Measure | 85% | N/A | |
| | Average roughness | End of Year Measure | End of Year Measure | End of Year Measure | <100 surface irregularities above a defined magnitude (15.2 mm) per kilometre of road, measured by high speed surveying | N/A | |
| | Peak Roughness | End of Year Measure | End of Year Measure | End of Year Measure | >145 surface irregularities above the defined magnitude (15.2 mm) per kilometre of road on the roads in the 95 percentile (i.e. the roughest roads) | N/A | |
| | Number of instances where road access is lost | End of Year Measure | End of Year Measure | End of Year Measure | <2 (arterial), <8 (total) | N/A | |
| Provide well- maintained footpaths and cycleways (DIA Performance | Percentage of footpaths and cycleways rated 4 or 5 (rating 1 best to 5 worst) based on independent survey | End of Year Measure | End of Year Measure | End of Year Measure | 1% | N/A | |
| Measure 4) | Percentage of residents being satisfied (very satisfied or fairly satisfied) with 'footpaths' in the Napier City Council Residents' Satisfaction Survey | End of Year Measure | End of Year Measure | End of Year Measure | 85% | N/A | |
| | Percentage of residents satisfied (very satisfied and fairly satisfied with 'roads' in the Napier City Council Residents' Satisfaction Survey | End of Year Measure | End of Year Measure | End of Year Measure | 85% | N/A | |
| Maintain a high level of customer service | Percentage of customer service requests responded to within 5 working days (DIA Mandatory Measure 5) | 100% | 100% | Unavailable | 90% | • | Due to staff resource unavailability this measure was not reported. |
| Provide adequate renewal of road surfacing | Percentage of the sealed local road network that is resurfaced (DIA Mandatory Measure 3) | End of Year Measure | End of Year Measure | End of Year Measure | 5% | N/A | |

Performance Indicators: ■ Achieved ■ In progress and on target ■ Within 10% ■ Not achieved greater than 10%

TRANSPORTATION FINANCIAL SUMMARY

Transportation Activity Group Financial Summary as at March 2024

| Figures are shown in thousands (\$,000) | | Year to Date | March 2024 | | | | | | |
|---|---------|-------------------|------------|---------------|-------------------|----------------|----------|-------|---|
| Net Operating Expenditure | Actual | Revised Budget | Variance | % Variance | Revised Budget | Annual Plan | Variance | Notes | Comments |
| Revenue | (7,169) | (6,397) | 772 | 12% | (8,971) | (8,971) | - | -1- | Some Waka Kotahi maintenance subsidised works are ahead of schedule. Additional Financial Contributions received from Developments across the city. Unbudgeted Cyclone Gabrielle and 2020 flood recoveries. These favourable variances are offset by renewals and new capital works which are behind schedule with a number of projects being re-prioritised into the 2024-34 Long Term Plan. |
| Expenditure | 9,209 | 8,372 | (837) | (10)% | 9,902 | 10,385 | 482 | -2- | Emergency preparation and response expenditure unbudgeted, plus higher than budgeted spend in the Carriageway and Street Lighting activities. |
| Depreciation | 5,262 | 6,395 | 1,133 | 18% | 8,527 | 8,527 | - | -3- | Capital works for the current financial year are usually capitalised at year-end which therefore creates a timing difference between budget and actuals. |
| Net Operating Expenditure | 7,303 | 8,370 | 1,067 | 13% | 9,458 | 9,940 | 482 | | |

Transportation Financial Summary by Activity as at March 2024

Other Infrastructure

Waste Minimisation

Council provides a domestic refuse collection service for both residential and commercial properties within Napier. We effectively and efficiently remove waste from households in Napier and convey it for authorised and appropriate disposal.

We dispose of waste in a few different ways: either we pick it up from a kerbside wheelie bin or litter bin and take it straight to landfill or we take bulk waste dropped off at the Redclyffe Transfer Station to landfill.

Council also provides a domestic recycling collection service for residential properties within Napier. We effectively and efficiently remove recyclable products from households in Napier and convey them to reuse markets.

We collect recyclables in a few different ways: either we pick it up from a kerbside receptacle where it is sorted into different product streams at the kerb before being conveyed in bulk to reuse markets or we take bulk recycling dropped off at the Redclyffe Transfer Station and sort it to be repurposed.

The Local Government Act 2002 requires Council to provide "effective and efficient" waste management services. The Waste Minimisation Act 2008 requires us to reduce the environmental impact of waste in New Zealand by encouraging waste reduction. The continued provision of this service is essential to the health of Napier's community and maintaining high environmental standards. Council delivers this "public good" service.

We also focus on advocating for, and educating about, ways to reduce the amount of waste our city produces. Reducing waste is close to the hearts and minds of the people in our community and solutions have to be relatively easy and widely acceptable. A reduction of waste being sent to landfill is not only good for the environment but would mean that Council doesn't have to invest as much in expanding and maintaining landfills in the future.

Central government is making several significant changes to the way we manage waste across the country. Currently, a levy of \$10 is paid for every tonne of rubbish which goes to municipal landfills. The government is increasing this levy to \$60 per tonne and applying it to all types of landfills except for cleanfills and farm dumps. This is a great way to get our community thinking about other ways to reduce and reuse their rubbish, but it will mean that the cost of waste disposal will increase quite significantly. The government is also looking into options for standardising kerbside recycling across the country to avoid confusion and decrease contamination in recycling.

The most significant assets held by this activity are the Redclyffe Transfer Station (which is aging) and several closed landfills which remain in place within the city while slowly degrading.

Cemeteries

Cemeteries are important and special places in a community, they provide a functional purpose for burials and ash interments, and a place to remember loved ones who have passed, as well as provide historical and cultural connections to the communities they serve. They also contribute to the amenity and open space function of Council's wider parks and reserves network.

Napier City Council operates and maintains six cemeteries within the city, the oldest being 'Old Napier Cemetery' with its first burial in 1851 and the newest being Western Hills which opened in 1985. In total, the cemeteries comprise an area of approximately 35 hectares.

There are no crematorium facilities in Napier and there is no legislative requirement for a local authority to provide such facilities. However, Napier City Council is a governance partner in the Hawke's Bay Crematorium which is provided and administered by Hastings District Council pursuant to the Hawke's Bay Crematorium Act 1944. This Act sets out its governance structure including the responsibilities of the contributing local authorities.

Public Toilets

Napier City Council provides, maintains, and develops public toilet facilities to meet the needs and demands of the community and visitors to our city. Currently, the city has 48 operational public toilets.

Public toilets are provided in key areas generally related to tourism, recreation, and shopping activities. Facilities are cleaned and inspected at least daily with the emphasis on hygiene, safety, and discouragement and removal of graffiti.

Community and Visitor Experiences

Activities in the Community and Visitor Experiences Group include:

- Kennedy Park Resort
- Napier Conferences & Events
- Napier i-SITE Visitor Centre
- · Par2 Mini Golf
- · National Aquarium of New Zealand
- Napier Libraries
- · Napier Municipal Theatre
- MTG Hawke's Bay
- The Faraday Museum of Technology
- McLean Park
- Reserves
- Sportsgrounds
- · Napier Aquatic Centre
- · Ocean Spa
- · Bay Skate
- · Retirement and Rental Housing
- · Community Facilities (Halls)
- · Community Strategies
- · Engagement, and
- · Events and Marketing.

Kennedy Park Resort

Kennedy Park is one of the busiest and most revisited holiday parks in New Zealand, providing over 28,000 room nights to visitors each year.

In total, it is possible for 1,400 people to be accommodated on site including those in tents and caravans.

Kennedy Park facilities are located in Storkey Street in Marewa. Kennedy Park offers a wide range of affordable accommodation types and associated facilities catering to various markets. Services provided include booking and enquiry services, guest information and assistance, maintenance of grounds and buildings, and administration.

Napier Conferences & Events

Napier Conferences & Events provides high-quality, full-service conferences and events to domestic and international clients from a number of venues throughout Napier City.

The activity operates out of the Napier War Memorial Centre, which is located on the northern end of Napier's Marine Parade, with views from Mahia Peninsular to Cape Kidnappers. It is the only purpose-built conference facility in Hawke's Bay.

Conference facilities are offered as part of Council's strategy to encourage visitors to the city and generate economic activity which is put towards investing in more efficient and effective infrastructure and public services.

Napier i-SITE Visitor Centre

Napier i-SITE Visitor Centre is an information hub that connects locals and visitors to Napier to places to stay and eat, attractions, and things to do while in the city.

The i-SITE facility is located on Marine Parade, a short walking distance from the CBD and iconic Napier sites. It houses a space to meet and chat to specialist consultants, an area dedicated to information and brochures about local businesses and tourism operators, and a gift shop.

To provide efficiencies associated with scale, Napier City needs to provide visitors with reasons to stay longer, do more, spend more, tell their friends and family, and come again. These visits generate economic activity which can be invested in the city's infrastructure and public services.

Par2 MiniGolf

Par2 MiniGolf facilities are located centrally on Napier's Marine Parade in the heart of the tourist zone beside the Napier i-SITE. Mini golf activity has been occurring on site for more than 50 years and today Par2 MiniGolf boasts two 18-hole courses and a clubhouse.

Council provides tourism facilities as part of its strategy for the economic development of Napier. Par2 MiniGolf plays an important part in the overall marketing of the city and is a family-friendly activity which is an anchor attraction to the now redeveloped Marine Parade.

National Aquarium of New Zealand

National Aquarium of New Zealand aims to provide fun, engaging experiences with close proximity to wildlife, inspiring awe and wonder about the natural world in our visitors.

Situated on Marine Parade, the aquarium is home to a range of native and exotic wildlife and includes a range of exhibits, the largest being a 1.5 million-litre oceanarium.

The aquarium provides an all-weather, exciting, interesting tourism facility for a wide range of audiences including families, domestic, and international tourists alike.

We link with local community members and a range of stakeholders to help them tell their stories through our exhibits and welcome feedback to ensure we continually strive for improvement.

Mātauranga Māori and Te Ao Māori are integral to the story of the taonga in our care and are essential to include in the information and experiences we share with our visitors both digitally as well as in our physical facility.

We engage in activities such as the Zoo Aquarium Association's captive breeding programme for North Island brown kiwi and rehabilitation work for little penguins. We also aim to inform and motivate visitors and our community to take action, acting as kaitiaki, for positive outcomes for nature.

By encouraging tourism to Napier and Hawke's Bay, the aquarium helps to generate additional spend in our community.

Napier Libraries

We provide easy access to informational, recreational, and educational materials, and a stimulating and pleasant library environment free of charge to the entire community.

Library services are provided to the community from two locations, Napier City and Taradale, with a variety of collections in multi-media formats and online services. The libraries support a total membership of approximately 23,000, of which some 4,500 members are resident in Hastings District (June 2019). Collection items held, as of 30 June 2019, total approximately 166,000.

Our libraries are all about empowering people to explore new ideas and build social connections within their communities. They are a place to learn and relax, and a place to feel safe and spend time without expectation of spending money.

Napier Municipal Theatre

The Napier Municipal Theatre is a leading theatre in Hawke's Bay for performances, shows, concerts, functions, and events.

Seating up to 988 patrons, the theatre has been operational on its current site in Tennyson Street since 1912. The building was destroyed in the 1931 earthquake and was rebuilt by 1938. The New Zealand Heritage List/Rārangi Kōrero declares the Municipal Theatre as a historic place. The Napier Art Deco Trust has also declared the building as a place of Art Deco significance.

The Municipal Theatre recognises and promotes an iconic building that celebrates Art Deco architecture while offering stage facilities for local, national, and international hire. This allows/provides our residents and visitors the opportunity to experience a range of theatrical, cultural, and artistic events.

MTG Hawke's Bay

MTG Hawke's Bay is the regional and premier arts and culture facility for the Hawke's Bay region. The MTG houses and cares for the region's collection under a management agreement with the Hawke's Bay Museums Trust. The museum presents and shares these collections through a series of exhibitions throughout the year including long-term galleries (1931 Earthquake display and Taonga Māori exhibition) alongside temporary exhibitions. The quality of MTG Hawke's Bay displays and activities are recognised through industry awards.

With three distinct eras of building, 1930s, 1977, and 2013, MTG Hawke's Bay is a complex building with multiple uses and activities. The Century Theatre provides the only medium-sized (330 seat) theatre in Napier, while a small retail shop and two foyer spaces generate additional revenue for the facility.

Museums and galleries help ground people in their history and provide places to learn and be inspired - showcasing culture to the community and visitors to the area. We also provide a place for people to interact and engage in a culturally safe environment as well as a tourism attraction for visitors to the city.

We care for one of the largest collections of Māori taonga in a regional facility and actively contribute to cultural understanding and connectedness through telling our stories in exhibitions developed in collaboration with Ngāti Kahungunu and the community.

The Faraday Museum of Technology

The Faraday Museum of Technology (formerly known as "The Faraday Centre") in Napier is Hawke's Bay's Museum of Technology. It cares for and displays a collection of historical technology enabling locals and visitors to discover the scientific, social, and cultural heritage that makes Napier and Hawke's Bay unique.

The Museum is housed in the historic Napier Powerhouse, built in 1911. A small team of staff and volunteers are responsible for the care of this historic building and over 20,000 objects in the collection owned by the Hawke's Bay Museums Trust.

The Museum attracts a diverse audience to share our technological heritage and ingenuity with, while providing a safe space for the community to meet and connect. As kaitiaki, Council are responsible for caring for the collection we have in our possession and sharing knowledge and the past with those who visit our museum.

McLean Park

Hosting international and national sports events, this facility provides outdoor sportsgrounds and stands, and an indoor court facility as well as administration and hospitality areas. The park also plays host to trade shows, expos, community events, and private functions.

Having a sporting venue with a capacity close to 20,000 means that Napier can compete with the likes of Auckland, Wellington, and Christchurch as a host for major sporting events. Attracting this kind of event to the city brings in revenue for local retailers, businesses, and tourism operators, which helps our city thrive.

Reserves

The Reserves Activity controls, manages, and maintains a range of parks, reserves, and public gardens of various sizes, designations, and purposes to cater to a wide range of community uses. We deliver well-maintained grounds and gardens ranging in location from coastal foreshore to formal botanical gardens. We also manage the day-to-day maintenance and operation of play equipment located throughout the city. The total land area of our reserves covers 405 hectares.

Our portfolio of reserves exists to enhance the quality of life of Napier's citizens by providing high quality passive and active recreational facilities throughout the city. As well as providing recreational areas for our community to meet and play, we support a large number of tourism events and local events which boost our local economy.

Sportsgrounds

The Sportsgrounds Activity is responsible for 213.4 hectares of sportsgrounds including a premier sportsground, Bluewater Stadium, and 14 general sportsgrounds. The even distribution of sportsgrounds around the city means that local communities have the opportunity to support and engage with local sport on their doorstep, with benefits including community spirit and pride.

We provide this activity to meet the recreational and sporting needs of our community. These services enhance the general health and wellbeing of the community where private enterprise may not be viable. In turn, we aim to provide safe and accessible recreational facilities to enhance the social and cultural wellbeing of our community.

Napier Aquatic Centre

The Napier Aquatic Centre provides the following opportunities for Napier's community:

Health and fitness - lane swimming, water-walking, aqua fitness, small group training, relaxation;

Sport development - club swimming, aquatic sports training and competition:

Leisure and play – family water play, hydroslide, outdoor splash pad, and Physical literacy – swimming lessons, holiday programmes.

Recognising the role that water can play to improve the health and wellbeing of our community, the purpose of the Napier Aquatic Centre is to develop skills, improve wellbeing, build confidence, and grow.

Ocean Spa

Council provides an outdoor complex with four heated outdoor pools and five spa pools. The facility also features a gym, small group fitness room, and café. The Napier City Council considers it important that it provides this service to bring about positive outcomes for the health and wellbeing of the community.

Bay Skate

Bay Skate is a multi-use, world-class roller sports park on Napier's Marine Parade. It caters for skateboarding, roller derby, BMX, scootering, inline hockey, roller skating, artistic skating and rollerblading.

Bay Skate is located on Marine Parade with the grandstand building comprising an entrance foyer, retail area, office, storage, and a leased area occupied by "Lick This" ice cream parlour. The outside rollersport facility comprises three zones: a rink, a wooden ramp area, and the all-new concrete bowl area, a world-class professionally designed and built series of concrete plaza-streetstyle configurations.

Retirement and Rental Housing

NCC has 377 units in 12 villages. The majority of our housing is for low-income older persons (60 years and over). There are 72 units available for low-income renters. We deliver asset and tenancy management services with in-house resources. Low-income tenants receive basic tenancy management services. The retirement villages have tenancy co-ordinators who carry out regular welfare checks on tenants as well as providing tenancy management services.

Community Facilities (Halls)

Council provides a range of community facilities that meet the recreational and social needs of the community. They are spaces where people connect, learn, socialise, and participate. There are four community halls, four community centres, and one sports centre. The halls are available for hire with discounted rates for community groups. Use of the community centres varies, but generally community groups lease the facilities and halls are either managed directly by Council or through a third party group or trust.

Community Strategies

The Community Strategies activity encompasses the following main activities:

- · Community planning
- · Community advice
- Community grants
- · Community engagement
- · Safer community (including Civil Defence).

Council works alongside our communities to support them to identify and implement solutions to the complex social issues present in our society. The team work both strategically and practically to ensure issues are identified, prioritised and addressed through a collaborative approach.

Engagement

NCC is responsible for making decisions about our city. Outcomes from these decisions affect our residents in different ways. It is important for people who are likely to be affected to know what could happen and to have an opportunity to tell us what they think. The Engagement Activity is the key link between Council and our community and responsible for initiating those conversations in lots of different ways, depending on the context.

Some examples of ways in which we engage the community include:

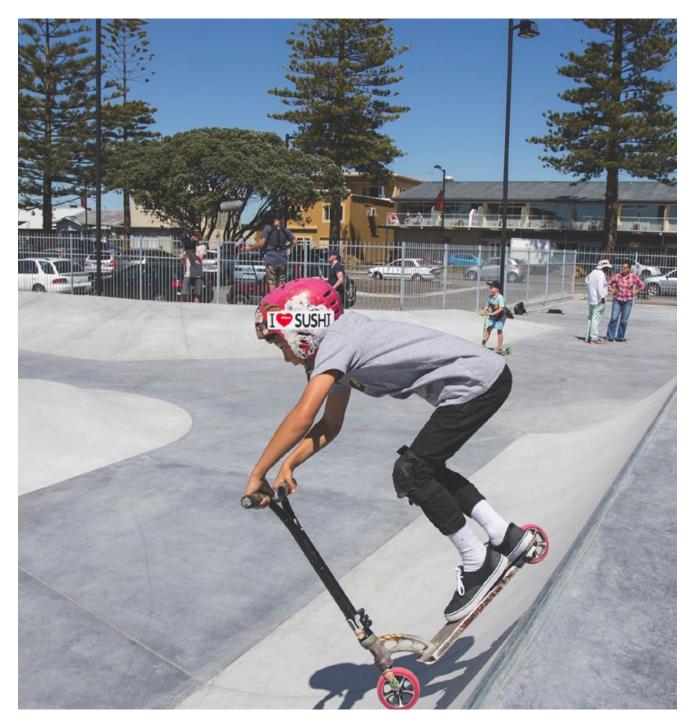

- Social media
- Newsletters, newspapers, posters, radio
- · Forums, public meetings, roadshows, and
- Surveys, consultation documents, formal hearings.

Events and Marketing

Napier City Council's Events Manager works across new and existing events to assist them to grow, develop, and become sustainable. The Marketing Team provides the promotional support for a variety of events, supports all communications and consultations with the local community, and provides wider tourism support for our visitor experience facilities.

NCC plays an important role in encouraging social inclusiveness and accessibility for our diverse community. Supporting events in the local area allows us to display our unique heritage, entice visitors to stay in the area, and contribute to the local economy.

By maintaining a number of communications channels and ensuring that information about what NCC is doing (and why) is easily accessible to local people, we keep ourselves accountable and empower our community to input into our decision making.

| Figures are shown in thousands (\$,000) | | Year to Date | March 2024 | | | | | | |
| Net Operating Expenditure | Actual | Revised Budget | Variance | % Variance | Revised Budget | Annual Plan | Variance | Notes | Comments |
| Revenue | (20,139) | (17,328) | 2,811 | 16% | (23,023) | (22,408) | 615 | -1- | Unbudgeted cyclone recovery revenue. Marine Parade Pools is ahead of budget, however due to data unavailablity when setting the budget, the budget was an estimate only. The National Aquarium of NZ is favourable to budget due to the school holidays and cruise ship season. Napier Conference & Events Centre is unfavourable to budget due to a slow business events quarter. Housing Retirement & Rental activities are favourable to budget, however these are offset by higher than budgeted maintenance expenditure. |
| Expenditure | 42,749 | 40,313 | (2,436) | (6)% | 55,026 | 51,081 | (3,946) | -1- | by higher than budgeted maintenance expenditure. |

Parklands Residential Development

Parklands Residential Development is a multi-stage residential development delivered by Napier City Council.

The subdivision has been spilt into four areas and encompasses 120 hectares of former Lagoon Farm land. Area 3 (235 lots) is expected to be completed at the end of 2023, and Area 4 (the final area comprising approximately 203 sections) is expected to be completed in 2027.

Residential development in Napier has historically been delivered via private developers, but after a series of planned developments had not proceeded, the city faced a critical shortage of available building lots. NCC saw the opportunity to become actively involved in making land available via the Lagoon Farm land. The development of Parklands also creates an income stream for NCC to assist with projects that will benefit the community as a whole and reduces the reliance on ratepayer funding.

Lagoon Farm

The Lagoon Farm Activity is a low-impact commercial farm operated on the former Ahuriri lagoon bed landholding south of the current estuary channel. The farm currently operates as a sheep farm with some paddocks leased out for hay cropping on a seasonal basis. The land is to be retained by NCC for potential future residential, commercial, or recreational development.

The farm comprises 289 hectares total area with 40 hectares used for roads, fencing, and storage areas.

This activity covers the costs of land retention and, wherever possible, provides a supplementary revenue stream for NCC to fund coastal amenities and maintenance. It also provides a number of other ancillary amenities to the general public and community of Hawke's Bay, for example recreational

cycleway access into the estuary zone and a site for blokarting activities. Approximately one-quarter of the area of the farm adjacent to the lower Purimu Stream is low lying and provides ponding capacity for the Napier stormwater system during extreme weather events.

Inner Harbour

The Inner Harbour provides NCC-owned berthage facilities and the Nelson Quay Boat Ramp for both commercial fishing vessels and recreational vessels and craft including the Sailing Waka. The Inner Harbour also provides the location for the Napier Sailing Club and the Hawke's Bay Sports Fishing Club, both of which occupy Council-owned land on a lease basis.

The Inner Harbour provides a channel to the open sea, which the Council is required to dredge to ensure it remains navigable. The waters within the Inner Harbour are also used by a variety of other water-based users from the wider community, while some of the Council wharves and jetties are used by the public for recreational fishing.

Responsibility for managing the Inner Harbour transferred to the Napier City Council as an integral part of local government reorganisation in 1989.

Property and Investment Assets

This activity is responsible for the management of leases and licences that have been established for parks, reserves, sportsgrounds, roads, commercial, industrial, and residential properties. The majority of leases within the Leasehold Land Portfolio are perpetually renewable.

Buildings Asset Management

Napier City Council owns approximately 350 buildings used to provide services to residents, visitors, and staff. These buildings have a total replacement value of over \$230M. The Building Asset Management Activity provides:

- · Buildings with Building Warrants of Fitness;
- Basic building maintenance programmes;
- Contract management of specialist providers to undertake Warrant of Fitness inspections and maintenance;
- · Coordination of reactive maintenance;
- Building condition assessments to develop high level building renewal plans, and
- · Professional building-related advice.

Council is required by several key pieces of legislation to ensure the buildings in its portfolio are safe and healthy. Not only that, buildings are important assets NCC can harness to support the health and wellbeing of the community. When looked after well, our buildings can minimise our impact on our environment and provide spaces for a wide range of community activities.

PROPERTY ASSETSPERFORMANCE SUMMARY

Parklands Residential Development

| Level of service | Performance measures | First Quarter | Second Quarter | Third Quarter | Target 2023/24 | Indicator | Comment |
|---|---|----------------------|------------------|-------------------------|---|-----------|---|
| Residential lots are created to provide an expanding residential development to meet the demand for the sections | Number of sections sold and developed | 0 | 11 Sold | 1 Sold & 0 Developed | Developed: 46 | • | 1 sold and zero developed. The target for 2023/24 relates to Area 4, however due to Covid19 and Cyclone Gabrielle stages 9 to 12 have been delayed and therefore the 2023/24 target will not be achieved. |
| Lagoon Farm | | | | | | | |
| Level of service | Performance measures | First Quarter | Second Quarter | Third Quarter | Target 2023/24 | Indicator | Comment |
| Lagoon Farm ensures stewardship of Council's 289 hectare land holding on the Ahuriri Lagoon Bed | Farm revenue will cover the cost of retaining the land as measured by the operating budget and Napier City Council annual internal financial statements for year ended 30 June each year | \$119,771 surplus | \$23,355 surplus | \$52,958 surplus | Revenue exceeds expenditure (prior to internal chargebacks) | • | Hay production is now complete. Lambs for fattening have been purchased and are expected to be sold before year end. |
| Inner Harbour | | | | | | | |
| Level of service | Performance measures | First Quarter | Second Quarter | Third Quarter | Target 2023/24 | Indicator | Comment |
| To provide and maintain Inner Harbour facilities to enable the safe berthing of commercial and recreational vessels | Dredging is carried out as required so the channel is maintained to a minimum depth of 2.4 m at lowest tide (source: depth sound checks) | Achieved | Achieved | Achieved | Achieved | • | |
| | No. of Permanent Berths | 98 | 98 | 98 | 98 | • | |
| Buildings Asset Management | | | | | | | |
| Level of service | Performance measures | First Quarter | Second Quarter | Third Quarter | Target 2023/24 | Indicator | Comment |
| Council maintains and renews all Council buildings to ensure buildings remain safe, in good condition, and fit for purpose | Buildings with compliance schedules under the Building Act 2004 which have current Building Warrants of Fitness | 100% | 100% | 96% | 100% | • | |

Support Units

Council has a number of cost centres of a corporate or support nature. These cost centres provide the technical and support services necessary for the function of Council's activities. Costs of the support services are reallocated to activities either as overheads based on the support each activity receives, or recharged direct on a usage basis.

Support Services include the Services Depot, which provides support for the Utilities and Reserves divisions including a store and mechanical workshop. Design Services provides scientific and technical services to other Council departments ensuring the community receives engineering services of maximum quality and safety.

CITY STRATEGY REGULATORY ACTIVITY REPORT

Building Consents

181 Building consents were issued this quarter with an estimated value of \$40,067,050.00. There were 41 total new dwellings. This compares to 188 building consents and 100 total new dwellings in the same quarter of the previous financial year.

Building processing timeframes:

135 out of 181 consents were issued within the correct timeframe for this quarter.

Resource Consents:

This quarter saw 52 Resource Consents processed (13 subdivision and 39 land use) in comparison to 34 total Resource Consents (13 subdivision and 21 land use) in the 2022-23 Financial Year.

Resource Consent processing timeframes:

180 out of 181 consents were processed within the correct timeframe for this quarter.

Animal Control

Infringement Notices Issued:

24 infringements were issued this quarter compared to 26 in the 2022-23 financial year. Dog Registrations at the end of the quarter were 7,925 compared to 7,988 at the same period in the 2022-23 financial year.

Impounding Activity:

356 dogs have been impounded this financial year. Of these, 176 were returned to their owner, 32 were rehomed, and 105 dogs were euthanised. This compares to 121 dogs euthanised in the same period last year. Of the dogs that were euthanised, 25 failed their temperament assessment, 10 displayed aggressive behaviour, 29 displayed menacing breed behaviour, 2 were euthanised for humane reasons, and 39 were surrendered due to aggression, attacking/biting, poor health or behavioural issues. The remaining 43 dogs were returned to their owners after their first impounding.

Dog Attack:

Of the reports of dog attacks on humans, there was 1 serious attack and 7 minor attacks in this quarter. Each of these were investigated and appropriate action was taken.

Parking

Infringements Issued:

3,118 infringement notices were issued this quarter. Of these 927 (30%) have been paid and 253 (8%) have been cancelled.

Parkmate:

The total transactions for this quarter was 56,468 which is up from the same quarter in the 2022-23 Financial Year that saw a total of 44,704 transactions.

Environmental Health

Noise Complaints:

There were 474 noise complaints received this quarter compared to 600 complaints in the same quarter in the 2022-23 financial year. 5 infringement notices were issued compared to 7 in the previous year.

Liquor Licencing:

There were 125 applications issued this quarter compared to 111 in the same period of the previous financial year. These applications comprised of 69 Managers Certificates, 29 Special Licences and 27 premise licences.

Freedom Camping:

This quarter there have been 4,905 recorded freedom camping vehicles which is an increase compared to 3,084 in the same quarter of the 2022-23 financial year. There have been 96 infringement notices issued this quarter.

Napier Assist

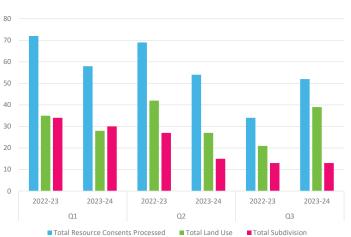

The total number of Napier Assist interactions recorded this quarter was 628. The majority of interactions are for retailer and facility check-ins, however outside of these regular check-ins, the most interactions for the quarter were homeless (158), public assistance (42) and graffiti (61).

QUARTERLY SERVICE REQUEST REPORT

The following provides a high level overview of what our customers contact us about. Not all customer contacts are requests for service, but if a customer requires information or a service that cannot be immediately provided by Council staff, it is entered into the Service Request system and passed through to the person who is able to action that request. Service Requests cover a wide range of customer requests, including complaints and compliments about our services, request for advice or information, and maintenance enquiries.

Questions about the data are best answered by the responsible Directorate.

Here is a description of the Service Request categories:

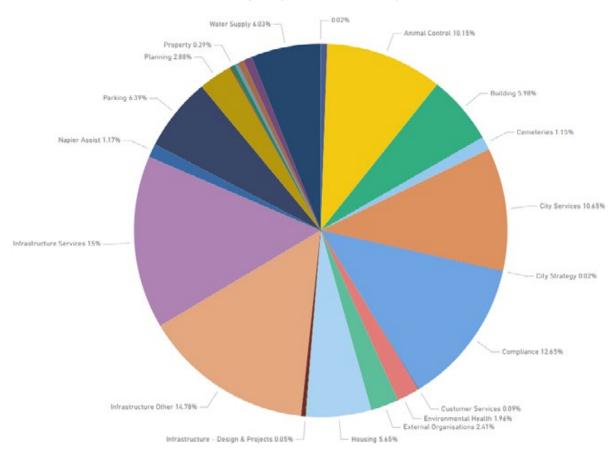

- Animal Control requests relating to animal and dog control
- **Building** related to building consents
- **Cemeteries** request related to cemetery operations
- City Services Depot, requests regarding maintenance of our assets and infrastructure
- Customer Services request for the Customer Service team
- Environmental Health requests related to food and alcohol licences, bylaws, and general compliance
- External Organisations request for service from contractors used by Council for services i.e. Waste Management
- **Housing** requests related to Council's housing tenancies
- Infrastructure Other requests related to environmental matters, 3 waters, parks and reserves
- Infrastructure Services requests related to roading
- **Parking** requests related to parking
- **Planning** requests related to resource management planning
- Plant requests about Council equipment
- **Property** requests related to Council-owned properties
- Rates requests related to rating

Date

30 June 2024

INTRODUCTION He kupu whakataki

This Statement of Intent ("SOI") is prepared by Management and the Board of Directors of Hawke's Bay Airport Limited ("Hawke's Bay Airport") in accordance with Section 64(1) of the Local Government Act 2002.

Hawke's Bay Airport is a council-controlled trading organisation ("CCTO") for the purposes of the Local Government Act 2002. This SOI sets out the objectives, the nature and scope of the activities to be undertaken by Hawke's Bay Airport, and the performance targets and other measures by which the performance of the company may be assessed in relation to its objectives.

Hawke's Bay Airport's achievements against the objectives outlined in last year's SOI are referred to in this year's annual report.

The SOI is a public and legally required document, reviewed and agreed annually with shareholders, and covers a three-year period. This SOI covers the period from 1 July 2024 to 30 June 2027.

OWNERSHIP AND GOVERNANCE

Rangatiratanga me te kāwanatanga

Hawke's Bay Airport was incorporated in 2009. Governance sits with the Board of Directors, which is responsible for the strategic and overall direction of the business. Directors are appointed by the company's shareholders: Napier City Council (26%), Hastings District Council (24%), and the Crown (50%).

Refer to Appendix A for board composition, an outline of the Hawke's Bay Airport Board of Directors' role and governance objectives.

NATURE AND SCOPE OF ACTIVITIES

Te Āhua me te Korahi o ngā kaupapa

Location

Hawke's Bay Airport is situated approximately 10 minutes from Napier City's central business district (CBD), 20 minutes from Hastings, and 30 minutes to Havelock North. The Hawke's Bay region stretches from Wairoa in the north to Waipukurau in the south. With a growing population of 184,800 as at the last New Zealand Census (2023), Hawke's Bay has 3.5% of New Zealand's population.

Operations

Hawke's Bay Airport is the third busiest airport in the North Island and plays an essential role in connecting the region's people and produce with the wider national and

HBAL Statement of Intent FY24/25

international economies via scheduled passenger services. Hawke's Bay Airport's primary activity is the safe and efficient operation of the airport, facilitating direct flights to Auckland, Wellington, and Christchurch serviced by Air New Zealand, and other centres within New Zealand serviced by smaller second-tier airlines. This includes the provision of appropriate and sound aeronautical infrastructure and associated facilities. Hawke's Bay Airport is also required to ensure the operational resilience of the airport as a lifeline utility, under the Civil Defence Emergency Management Act 2002.

WHO WE ARE

Ko wai mātau

Hawke's Bay Airport is the gateway to Hawke's Bay, and we pride ourselves on supporting the community we serve. Our purpose is to connect people, businesses, and the region in meaningful ways. Through our public ownership and the role we play as a critical lifeline and transport asset, we are committed to ensuring the airport makes a positive impact for the region and its future growth.

We are aspirational, resilient, and operationally sound, positioning us well to achieve our growth objectives.

The commitment and determination of our team are key to achieving the goals set for Hawke's Bay Airport. By concentrating on establishing frameworks for performance and well-being, we aim to set our foundation in people, enabling our staff to excel and prosper no matter the environment.

WHAT WE DO Ā mātau mahi

We are a safe, secure, and intuitive transport hub for everyone, with sustainability and resilience at the heart of everything we do.

Hawke's Bay Airport is home to two commercial airlines and numerous private aviators. Air New Zealand's direct flights to Auckland, Wellington and Christchurch offer great flexibility for those coming into and going out of the region. More recently, Sunair joined our airport community with daily flights to Wairoa, Gisborne and Tauranga. These flights have played an essential role in bridging connections across the East Coast in the aftermath of Cyclone Gabrielle, a contribution that will remain crucial as the region progresses through the ongoing recovery efforts in the years ahead.

Not so well-known are the general aviation community, who make a significant contribution to Hawke's Bay's economy and regional connectivity. They provide essential services such as helicopter operations, aircraft maintenance, private jet flights, and lifesaving air ambulance missions across New Zealand and as far afield as the Pacific Islands.

The importance of resilient air transport infrastructure was never more obvious than

HBAL Statement of Intent FY24/25

during Cyclone Gabrielle in February 2023. Our capacity to continue operating in a natural disaster is central to our role as a regional asset and lifeline utility. As climate change impacts become more frequent, we are leveraging data and insights to enhance our operational capabilities which will be instrumental in defending our site.

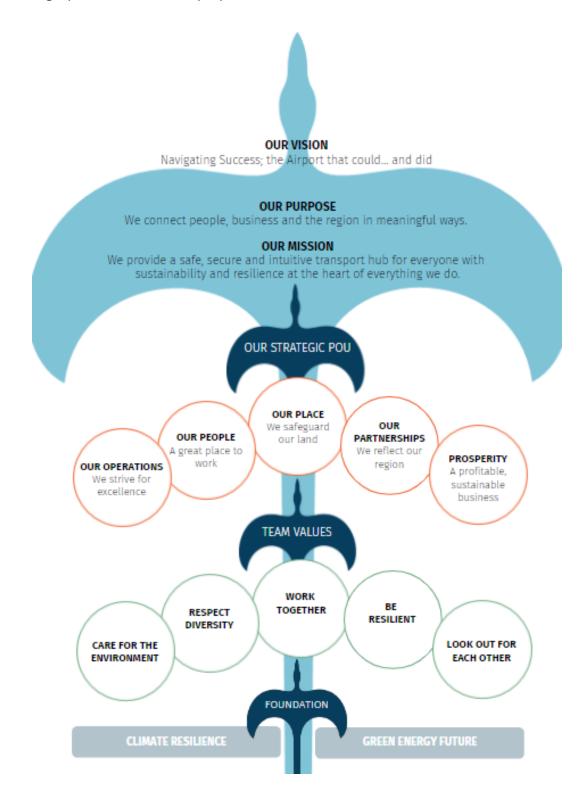

Having a positive impact for our community extends beyond aviation. Supporting Biodiversity Hawke's Bay, Big Brothers Big Sisters Hawke's Bay, and local events such as the Art Deco Festival Napier and the Hawke's Bay Marathon are our way to show the people of Hawke's Bay we are part of their community.

UKAFI

OUR VALUES

Ō mātau uaratanga

Hawke's Bay Airport's values are the foundation for our success; the bedrock on which our strategic pillars, our mission, purpose, and vision are built.

HBAL Statement of Intent FY24/25

OUR CONNECTION TO THE LAND To matau hononga ki te whenua

Events past and present connect us to our whenua (land) and help to shape our future.

Hawke's Bay Airport is situated in an area of historical significance. The damage caused to Ahuriri in the 1931 Napier earthquake is etched in the history of Hawke's Bay. This earthquake raised the tidal lagoon known as Te Whanganui-ā-Orotū by 1.8m creating the land on which the airport now stands.

Sharing such stories, and the airport's history, is of special significance in 2024 as we mark 60 years since Hawke's Bay Airport was officially opened.

To celebrate this milestone with airport visitors two installations have been introduced in the terminal:

- A timeline of our aviation history from the 1931 earthquake to today, telling the
 incredible stories of an airport that rose from the post-earthquake darkness, to
 becoming Hawke's Bay's thriving regional airport today.
- A map of Te Whanganui-ā-Orotū depicting the area prior to the earthquake. In collaboration with Mana Ahuriri, this map is the first of its kind on public display, illustrating the significance of the whenua on which the airport now resides.

COMPANY VALUATION Te uaratanga o te kamupene

The airport's assets and investment property have been revalued to fair value as at 30 June 2023. This resulted in an increase in Shareholders' Equity of \$1.1M. Board and Management believe this provides more relevant and reliable information to Shareholders about the business's financial position and performance.

As of 30 June 2023, Hawke's Bay Airport's land, land improvements, buildings and assets were valued at \$82.1M.

Hawke's Bay Airport's total land holding is 230ha and is comprised of leasehold land (in perpetuity from Napier City Council and Hastings District Council) and freehold land.

FY2025 OUTLOOK Te anganga o FY2025

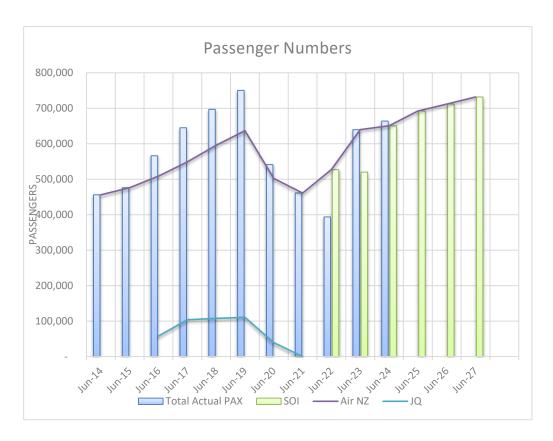

Hawke's Bay Airport's strategic importance extends beyond its role in air transport; it serves as an economic catalyst, stimulating growth, creating employment opportunities, fostering business activities, and is a key connection to markets beyond the region.

Future developments at Hawke's Bay Airport are intended to ensure we continue to be resilient, vital, and fit for purpose in the years ahead.

This SOI sets out how we will deliver sustainable value to our community and shareholders.

Our financial forecasts are dependent on a wide range of factors, the most important of which is the community's propensity to travel. This is because most of our revenue streams correlate directly with passenger numbers.

The graph below provides the forecast for passenger movements for the three-year period covered by this SOI. It assumes strong demand for travel to and from Hawke's Bay Airport will continue.

OUR STRATEGIC PRIORITIES Ngā Whakaarotau ā Rautaki

The global landscape for aviation is re-shaping the world we live in. We expect significant change in the years ahead driven by the electrification of aviation, modal shifts, technological advancements to improve customer experience and support operational efficiencies, as well as the imperative for resilience to climate change. With our eyes firmly on the future, we have taken the opportunity to reshape our strategic priorities to position our business to reflect these developments.

HBAL STRATEGIC PRIORITIES SOI 2024 - 2025

Progressive and resilient infrastructure

We're optimising airport assets for growth and resilience

Airport land development and enhancements

Enabling sustainable regional growth, revenue diversification

Air Service Development

Creating new connections for the region

Renewable energy & resource efficiency

Enabling a green energy future

Digital Transformation

Harnessing technology to advance all areas of the business

- Airfield power & lighting upgrade
- Airfield runway improvements
 Apron extension
- Apron extension
 Back-up generator
- Carpark roading improvements and enhancements
- enhancement
 Fire Station
- Stormwater improvements
- Environmental ground water monitoring
- Aeropark infrastructure
 Tenant growth
- New routes / passengers
- Solar-powered vehicles and
- Electricity supply improvements
- Solar farm
- Digital Transformation Strategy

Progressive and resilient infrastructure

In the face of evolving aviation demands and environmental challenges, we are committed to ensuring our assets enable growth and are resilient. This means investing in innovative infrastructure that not only accommodates increases in passenger numbers, but also stands resilient against climate-related events.

Projects that support these priorities include storm water planning, climate change monitoring and modelling, and delivering a purpose-built Fire Station. We will continue to engage with Hawke's Bay's regional freight and transport strategies to advance development of multiple road access points to the airport further strengthening our resilience.

Great infrastructure means a great experience for airport visitors. Landside assets such as car parking and public facilities will be enhanced using innovative technologies and intuitive design. Considering the needs of customers of all abilities will deliver an

HBAL Statement of Intent FY24/25

exceptional experience for everyone.

Airport Land Development

As a strategic asset of the region, Hawke's Bay Airport enables regional growth. Unlocking opportunities for the diversification of revenue streams will build commercial resilience which is an important objective in the years to come. We will achieve this by getting the best out of our existing assets and identifying areas of growth landside. Creating an enhanced car parking experience and preparing for future modal change are some of the projects that will achieve this.

We are giving priority to the development of airport land which will support a business park and other complementary facilities in a way that is sympathetic to the natural environment and our community.

Air Service Development

Developing air services is core to our business and key to strengthening and expanding our network. Creating new connections is achieved through active engagement with airlines, regional tourism operators and other airports.

We continue to focus on strengthening our existing links, while developing new and unserved routes. Our sights are also set on further expansion of immigration services for private jet operations at the Airport knowing these services attract high value tourism to the region.

Our goal is to be a pivotal link that not only connects our region to major cities across New Zealand and beyond but contributes to the economic vitality of our region.

Renewable energy and resource efficiency

Our track record in sustainability has been awarded here in New Zealand and internationally. But there is more to do, and we are steadfast in our commitment to further environmental sustainability improvements, which is why focusing on renewable energy and resource efficiency remain key strategic priorities.

The proposed development of a 45-megawatt solar farm in partnership with Manawa Energy means we will be able to not just support developments in sustainable aviation but also improve our own energy efficiency and that of our wider business and residential communities.

While at this stage there is no allowance in this plan for Hawke's Bay Airport to invest in the Solar Farm, and no royalties or rental incomes have been recognised, this will be reviewed as the project progresses.

In tandem with this initiative, we will continue to focus on improving resource efficiency by adopting smart technologies to give us real time data on air quality, power usage, environmental conditions, and waste. Alongside ensuring we measure our own

HBAL Statement of Intent FY24/25

sustainability performance we know these measures will also mean we are partner of choice for likeminded businesses and initiatives.

Digital Transformation

To improve performance and deliver on our ambitions, it is critical that Hawke's Bay Airport is future-ready and can adapt to the evolving technological landscape ahead. The delivery of a digital transformation strategy will create a whole-of-airport digital ecosystem enabling the Airport to adapt to changing revenue streams in the future.

At the same time, we continue to harness technology to improve efficiencies across the airport. The continued development of real-time reporting across the business is supporting our operational excellence and customer experience goals.

We will work closely with our business partners – from airport tenants to air service providers and key regional partners – to support our shared business objectives through intelligent data strategy.

LOOKING AHEAD Te Anga Whakamua

Hawke's Bay Airport is a thriving business enjoying growth in route services, with Air New Zealand flights into and out of Hawke's Bay Airport now at pre-pandemic levels and Sun Air providing welcome connectivity to the northern-most reaches of Te-Matau-a-Māui/Hawke's Bay and Tairawhiti/Gisborne. We are also the home of an aviation community that is at the heart of Hawke's Bay's unique regional character and economic prosperity.

However, we remain equally focused on growing non-aeronautical revenue to support our long-term business sustainability and continue to support and grow Hawke's Bay's prosperity.

It goes without saying, our success relies on the capability and commitment of our people. We are committed to ensuring we retain and attract the very best talent with the right capabilities and experience to deliver our ambitions, while providing them with a safe and inclusive place to work and supporting them to be the best they can be.

KEY OBJECTIVES FY24/25 Ngā whāinga matua - FY24/25

The following outlines our key objectives for FY24/25 and beyond.

| | OUR OPERATIONS | | | | | | | |
|--|--|--|--|--|--|--|--|--|
| Ā mātau mahi | | | | | | | | |
| | re, and intuitive customer journey for all. | | | | | | | |
| | e strive for excellence | | | | | | | |
| Objectives | Key Performance Measures | | | | | | | |
| Maintain legislative and regulatory | No significant legislative or regulatory breaches. | | | | | | | |
| compliance | No significant adverse audit findings by MPI, CAA or HBRC. | | | | | | | |
| Provide collaborative and productive health, safety and wellbeing support to our team and HBAL tenants, business partners and visitors, including easy to use data and tools, and timely reporting | Continuous improvement of the company's H&S management framework delivering improving KPI trends. | | | | | | | |
| Develop progressive and resilient infrastructure that safeguards our | Fire Station design completed, consented and construction ready. | | | | | | | |
| future | Robust Asset Management Plan processes are implemented, encompassing infrastructure planning, asset renewal and proactive maintenance schedules. | | | | | | | |
| | Customer Experience enhanced through the implementation of an agreed Landside Strategy. This will include landside opportunities and offerings, and associated performance measures. | | | | | | | |

Best practice looks like: an airport operation that runs smoothly and efficiently with sitewide safety, and where every person working for Hawke's Bay Airport actively contributes to safety and security. Hawke's Bay Airport maintains its essential operating credentials, while strengthening the resilience and sustainability of our infrastructure and operations. We have an airport that reflects our region and a passenger experience that is easy, and inclusive.

| | OUR PEOPLE | | | | | | |
|---|---|--|--|--|--|--|--|
| | Ā mātau tāngata | | | | | | |
| We treat our people wit | th respect, empower them with knowledge | | | | | | |
| and | allow them to flourish. | | | | | | |
| A | A great place to work | | | | | | |
| Objectives | Key Performance Measures | | | | | | |
| Nurture a culture of continuous improvement and value-driven work performance | A competency framework is developed, outlining role expectations and required capabilities and skills. | | | | | | |
| | A learning and development matrix is established that aligns with the competency framework to support our team to develop the capabilities and skills they need to succeed. | | | | | | |
| | Our team is upskilled on how to provide and receive feedback by establishing a structured process for feedback and recognition programme. | | | | | | |
| | Staff satisfaction rating shows a positive trend. | | | | | | |

Best practice looks like: a positive, dynamic culture that enables our people to thrive. Our people know how their efforts and performance contribute to Hawke's Bay Airport's vision and believe we are a great place to work.

| | OUR PLACE |
|---|--|
| | Tō mātau wāhi |
| We ensure our | airport's future through strategic |
| sustainab | ility and resilience practices |
| We | e safeguard our land |
| Objectives | Key Performance Measures |
| Understand the impacts of climate change and have plans to manage and mitigate its effects. | Develop a roadmap that supports our decisions to defend our site from the effects of climate change. The roadmap will also ensure environmental compliance requirements are met. |
| | Maintain ACA Level 4+ Transition while investigating broader ESG frameworks and supporting standards. e.g. BCorp and alternatives. |
| Ready and capable for a sustainable aviation future | Collaborate with airlines and others in the aviation sector to understand and prepare for future aviation requirements |

Best practice looks like: An airport known and trusted for respecting and protecting the natural environment in which it operates. We have decarbonised our business and are continuously adapting to the effects of climate change. We are ready and capable for sustainable aviation needs of the future. We are recognised as a leader in sustainability.

HBAL Statement of Intent FY24/25

| OUR PARTNERSHIPS | | | | |
|---|--|--|--|--|
| Ng | ā rangapū mahitahi | | | |
| We foster positive and enduring relationships with our customers, partners, and community. We reflect our region | | | | |
| Objectives | Key Performance Measures | | | |
| Continuously improve our relationships with airport partners, customers and stakeholders | A Stakeholder Engagement Plan is developed and implemented | | | |
| | Stakeholder engagement feedback trends positively. | | | |

Best practice looks like: An airport connected to our community and taking a leadership role in regional economic development. Hawke's Bay Airport's people have strong, authentic, and productive relationships with everyone important to our success, including shareholders, mana whenua, tenants, customers, local and central government, regional economic development partners and the community.

Hawke's Bay Airport is actively engaged in regional planning and development processes.

| PROSPERITY | | | | | |
|---|---|--|--|--|--|
| | Te houkuratanga | | | | |
| We maximise commercial returns, to provide value for our stakeholders and our region. We create new connections for the region. A profitable, sustainable business | | | | | |
| Objectives | Key Performance Measures | | | | |
| Optimise Shareholder returns | Return on Equity greater than or equal to 5%. | | | | |
| | Net Profit After Tax greater than or equal to \$2.9M pre revaluation adjustments. | | | | |
| Pursue commercial opportunities | Develop new revenue streams that include: | | | | |
| | Growth of core business | | | | |
| | Land asset developments. | | | | |
| Use technology to optimise operational and business performance. | A digital transformation roadmap is developed, and implementation is underway. | | | | |

Best practice looks like: Our airport remains prosperous through maximising revenue streams and is future-proofed through technology that transforms efficiency and drives value.

Summary

We are committed to the continued resilience and growth of our airport. Diversification of aeronautical and commercial opportunities are the key drivers of our future prosperity. Hawke's Bay Airport's sights are set firmly on being the most forward thinking, future-proofed, digitally savvy, and commercially successful regional airport in New Zealand.

We are excited to live our vision of being the airport that could...and did!

FINANCIAL FORECASTS

Ngā matapaenga ā-ahumoni

The updated forecast to 30 June 2024 and the three outlying years have been based on passenger numbers delivered to 31 December 2023 and the passenger forecasts provided by Air New Zealand. There has been a strengthening in aircraft movements across all main routes during FY2024, with additional services being provided by Air New Zealand on Auckland and Christchurch routes. Load factors remain consistently high (average 85% FY2024) and these continue through the life of this SOI.

The per passenger charging mechanism adopted in October 2020 will increase in FY2025, but decline in future years, partly due to increased passenger numbers. This initial lift is the consequence of increased capital spending in FY24 and higher operating costs as cost ownership transitions from Airways to the airport for airfield lighting and power. There has also been significant spending on apron developments during FY24. In addition, the cost of capital continues to be high during FY25, despite evidence of a small decline in both interest rates and inflation.

Hawke's Bay Airport Limited

| CFADS: Interest | 5.7x | 4.9x | 4.4x | 4.1x |
| Debt Service Coverage Ratio (DSCR) ² | 5.7x | 4.9x | 4.4x | 4.1x |
| EBITDA:Debt | 33% | 34% | 29% | 28% |

Notes

- 1. CFADS is defined as Net profit After Tax, plus depreciation and amortisation, less cash taxes, less/plus extraordinaries such as revaluations. It is broadly equivalent to Free Funds from Operations.
- 2. DSCR is CFADS divided by Total Debt Servicing. Debt servicing is interest plus principal and is calculated after a "Cash Sweep" where all cash in excess of \$500,000 is used to repay debt.

Hawke's Bay Airport acknowledges that the world and domestic economies are impacted by continued high interest rates and inflation, coupled with other worldwide events (wars and extreme climate related events). While we remain confident in being able to deliver our targets, we expect customer propensity to spend disposable income on air travel will continue to have an impact into FY2025.

We will ensure our shareholders are provided with regular updates of actual and projected results as they come to hand.

CAPITAL EXPENDITURE Whakapaunga pūrawa

Hawke's Bay Airport continues to invest in its infrastructure in line with passenger numbers, asset management condition assessments, Civil Aviation Authority security requirements and the Ministry of Transport. While we continue to identify opportunities to further diversify our non-aeronautical revenue streams, the key capital focus remains on positioning the airport to be fit for the future. This means undertaking workstreams that support resilience and climate change, but also embracing opportunities to transform our site through technology enhancements. Capital expenditure is based on what we know now and could be subject to change.

Capital expenditure programmes will be presented to the Board when supported by a robust business case and funding capability.

Budgeted capital expenditure is summarised in the table below. Long-term capital expenditure associated with the aeronautical infrastructure is provided for as per the long-term maintenance plan, prepared and updated annually by Aecom Limited.

Hawke's Bay Airport Limited

ACCOUNTING POLICIES

Ngā kaupapahere mahi kaute

The accounting policies adopted by Hawke's Bay Airport are consistent with New Zealand's International Financial Reporting Standards and generally accepted New Zealand accounting practices. The policies are included within Hawke's Bay Airport's annual report, which is available on the company's website: www.hawkesbay-airport.co.nz/about/company/annual report.

DISTRIBUTIONS

Ngā tohanga

The Directors will, in consultation with shareholders, set and review the dividend policy periodically and, where fiscally prudent, recommend dividend payments that are cognisant of Hawke's Bay Airport's earnings, capital expenditure and future investment requirements.

Currently, it is proposed to resume dividends in the 2025 financial year, subject to trading conditions at the time. In the intervening period, the company will reinvest capital in core assets, and re-gear the balance sheet to support upcoming investments in airport infrastructure and resilience.

At present, the dividend policy assumes a circa 40% payment of NPAT as a dividend, but as previously noted this should remain subject to discussion with shareholders as to the suitability of this approach.

Hawke's Bay Airport places a strong focus on strategies of revenue diversification and resilience which underpin a sound foundation for revenue recovery and balance sheet growth. In addition, a key focus on digital transformation opportunities will position the airport for the future. These strategies will create enhanced financial returns and maximise value to shareholders through an appropriate balance of reinvestment and dividend.

A strong net profit after tax result is forecast for the upcoming 2023/24 financial year and subsequent periods. These forecasts are included in this SOI and are conditional on New Zealand maintaining the status quo and not being materially affected by external economic shock factors.

INFORMATION TO BE PROVIDED TO SHAREHOLDERS

Ngā kōrero ka tukuna ki ngā kaiwhaipānga

Shareholders will receive:

- An annual report including audited financial statements within three months of balance date.
- A six-monthly report including non-audited financial statements within two months of balance date.
- A quarterly report within two months of the end of each quarter.

HBAL Statement of Intent FY24/25

21

- A Statement of Intent submitted for shareholders' consideration in accordance with the Local Government Act 2002.
- Other interim financial reports as agreed with the shareholders.
- Reports on matters of material interest to shareholders. Shareholders will continue to be kept informed of key developments, consistent with the Crown's 'no surprises' policy.
- Hawke's Bay Airport Limited is also required to comply with the disclosure requirements of a specified airport company pursuant to the Airport Authorities (Airport Companies Information Disclosure) Regulations.

ACQUISITION PROCEDURES

Ngā tukanga hopu

The acquisition of any interest in a company or organisation will be considered to ensure it is consistent with the long-term commercial objectives of the company. Any material acquisition will be the subject of consultation with shareholders.

Major transactions as defined by the Companies Act 1993 will require shareholder approval.

COMPENSATION SOUGHT FROM LOCAL BODY SHAREHOLDERS

Kua tonoa he utu paremata i ngā kaiwhaipānga o te rohe

At the request of the shareholders, Hawke's Bay Airport may undertake activities that are not consistent with normal commercial objectives. In these circumstances, Hawke's Bay Airport may seek a specific subsidy to meet the full commercial cost of providing such activities. None are contemplated in the planning period.

ESTIMATE OF COMMERCIAL VALUE

Te matapaetanga o te wāriu arumoni

The value of shareholders' investment in Hawke's Bay Airport as at 31 December 2023 was \$53.1M.

The property, plant, equipment, and investment property (non-current assets) owned by Hawke's Bay Airport were revalued at 30 June 2023 to their current market value of \$82.1M.

Hawke's Bay Airport will continue to undertake a revaluation approach to its assets on a yearly cycle or when there has been a significant change in the market, to consider the gap between current book values of the assets and liabilities versus the commercial value of the business.

APPENDIX A: BOARD OF DIRECTORS ROLE AND GOVERNANCE OBJECTIVES Āpitihanga A: Te wāhi ki te Poari Ringatohu me ngā whāinga kāwanatanga

The Board has four directors, two of whom are appointed by Napier City Council and Hastings District Council and two of whom are appointed by the Crown. The Board meets regularly with Hawke's Bay Airport leadership to review the company's performance and provides quarterly, half-yearly and annual business performance reports to shareholders.

Role of the Board of Directors and governance objectives

In carrying out its principal function, the Board's specific responsibilities and objectives include:

- a) Ensuring that the company has adequate management resources to achieve its
 objective, to support the CEO, and has a satisfactory plan for management succession
 in place.
- b) Reviewing and approving the strategic, business, and financial plans prepared by management and developing a depth of knowledge of the company's business to understand and question the assumptions upon which such plans are based and to reach an independent judgement on the probability that such plans can be achieved.
- c) Reviewing and approving material transactions not in the ordinary course of the company's business.
- d) Reviewing operating information to always understand the state of health of the company.
- e) Considering management recommendations on key issues, including acquisitions and divestments, restructuring, funding, and significant capital expenditure.
- f) Approving policies and overseeing the management of strategic business risks, safety, sustainability, occupational health, and environmental issues with the following aims:
 - i. To manage risk throughout the company's operation in order to protect its shareholders, employees, assets, earnings, and reputation.
 - ii. To comply with all relevant legislation.
 - iii. To encourage employees to actively participate in the management of environmental and occupational health and safety issues.
 - iv. To employ consultants where required to raise standards or improve existing conditions.
 - v. To use energy and other resources efficiently; and
 - vi. To encourage the adoption of similar standards by the company's principal suppliers, contractors, and vendors.
- g) Approving and fostering a corporate culture which requires management and every employee to operate to the highest level of ethical and professional behaviour.
- Setting and monitoring adherence to major policies, including capital investment, treasury, accounting and financial, executive remuneration, and delegated authority limits.
- i) Approving the appointments by, or at the request of, the company (including its affiliates) to the boards of subsidiary and associate companies.
- j) Monitoring the company's performance against its approved strategic,

- business, and financial plans and overseeing the company's operating results on a regular basis to evaluate whether the business is being properly managed.
- k) Ensuring ethical behaviour by the company, the Board and management, including compliance with the company's constitution, the relevant laws, and the relevant auditing and accounting principles.
- l) Reporting to shareholders on its stewardship. Information is to be communicated to shareholders through:
 - The annual report, which is distributed to all shareholders. The Board is to ensure that the annual report includes relevant information about the operations of the consolidated entity during the year, changes in the state of affairs of the consolidated entity and details of future developments, in addition to other disclosures required by the Companies Act and financial reporting requirements.
 - ii. Result announcements regarding the annual, quarterly, and half-yearly results.
 - iii. Annual statement of intent.
 - iv. Media releases.
 - v. The annual meeting, and other shareholder meetings called to obtain approval for Board actions as appropriate. The company will provide notification of shareholder meetings at least 20 working days prior to the meeting and not later than 15 months after the previous meeting; and
 - vi. The company's website.
- m) Ensuring that shareholders can easily communicate with the company, including providing shareholders with the option to receive communications electronically.
- n) Ensuring that the company's shareholder reporting meets the requirements of the Owner's Expectation Manual which can be found on the Treasury's website
 - https://treasury.govt.nz/publications/guide/owners-expectations, including:
 - Ensuring that financial reporting is balanced, clear and objective. The Board should explain to shareholders how operational and financial targets are measured.
 - ii. Ensuring that the company provides non-financial disclosures to shareholders at least annually. These should consider environmental, economic, and social sustainability factors and practices.
 - Ensuring that the company reports to shareholders on material risks facing the business and how these are being managed.
 Reporting should disclose how the company manages its health and safety risks and the performance and management of those

risks.

- iv. Ensuring that the company discloses any internal audit functions.
- o) Select and (if necessary) replace the CEO.
- p) Assess, from time to time, its own effectiveness in carrying out these functions and the other responsibilities of the Board.
